Grandpa's Wisdom

Trouble in marriage often starts when a man gets so busy earning his salt he forgets his sugar

Too many couples marry for better, or for worse, but not for good

Open—Hall of Fame

With Walter Heeney as the Master of Ceremonies, the traditional Hall of Fame game got under way on Wednesday, April 4th, 2007, marking the opening of the 2007 Ontario Provincial Open Qualifying in Hamilton. All of the Hall of Fame members in attendance received a gift from the O5PBA and those who had been members of the Master Bowlers of Ontario received a newly designed pin acknowledging their years as members in that association. In addition, fourteen (14) of the Hall of Famers bowled to the delight of everyone in attendance.

Editing Errors

Correction on the Hi-Low Doubles going to the Nationals. While the 2nd place team wins a trip to a Sunny Destination, they do not go to the Nationals

Correction on the winner of the President division of the PST Tournament. Sara Paulitzki is from "Dickson Bowl".

ACTIVE2010

This project is supported by the

Notice to all Zones and Decentralized Associations. There are still three (3) spots available for students at this year's Bowling School. Anyone interested please contact the O5 office for more information.

Obituaries

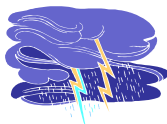

James Robert (Bob) Munn passed away on Wednesday, March 28th, 2007 at the Tillsonburg District Memorial Hospital. Formerly of London, Ontario, Bob was the owner of Broadway Lanes, in Tillsonburg where he had resided for the past eighteen years. Bob was 54 and our sympathies go out to his family. A memorial service was held on April 5th, 2007 at the Verhoeve Funeral Home Chapel, 262 Broadway Street, Tillsonburg. Donations (by cheque only) to Dr. Sanjay Mehta, London Health Sciences Foundation, (Pulmonary Hypertension), Tillsonburg Community Living or Upper Deck.

*With
Deepest
Sympathy*

Eye of the Storm—Answers

1. C) Waves 15" high crashed into the "Jewel of Texas" on Sept. 8, 1900, completely destroying most of the city. The *Galveston* hurricane is considered the deadliest natural disaster of any kind in U.S. history.
2. B) Since 1979 the National Weather Service has used lists of alternating male and female names to identify particular tropical storms and hurricanes.
3. A) A hurricane and a typhoon are both tropical *cyclones*, high-velocity wind systems that blow in a circle around a low-pressure center. The term hurricane is used for tropical cyclones in the North Atlantic Ocean and in the Northeast Pacific Ocean east of the International dateline. Typhoon is the term used for tropical cyclones in the Northwest Pacific Ocean west of the dateline.
4. B) A tropical cyclone sustaining winds of between 39 and 73 mph is classified as a tropical storm. Only when the winds reach 74 mph is it classified as a hurricane.
5. C) Hurricane Mitch's winds exceeded 155 mph making it a category 5 storm (the strongest class of hurricane). But Mitch's torrential rains not its winds caused most of the damage. The hurricane hovered over the region for several days and dropped as much as 50 inches of rain on some areas.
6. B) On Aug. 24/92, Andrew slammed into southern Florida and in a few hours the hurricane had destroyed or badly damaged some 80,000 dwellings. Two days later it crossed into Louisiana leaving 10,000 homes destroyed or badly damaged. Before it was finished, it had caused between \$20 and \$30 billion in property damage
7. C) A storm surge can create a great dome of water 50 to 100 miles wide that can crash into the coastline when a hurricane makes landfall. Storm surges, rather than high winds, cause the vast majority of damage unleashed by hurricanes.
8. A) Winds are eerily calm at the very center of a hurricane, an area known as the "eye" of the storm. Little or no precipitation falls in the eye, and the sun may even shine through. The eye features the lowest atmospheric pressure and the highest temperatures of the storm. This refuge of relatively calm winds is surrounded by the "eyewall" which is the area of highest surface winds in the tropical cyclone.
9. B) The indigenous Taino people of the West Indies named their god of violent storms Kurakan. Spanish explorers in the Americas eventually borrowed the name of the Taino god to form huracan, which they used to describe the storm itself. This then became the basis for the English hurricane.

An Olympic Quiz

1. In which city were the first Winter Olympic Games held?
 - a) Sokoto, Nigeria
 - b) Sapporo, Japan
 - c) Olympia, Greece
 - d) Chamonix-Mont-Blanc, France
