## Tournament Dates

### In Memory

Anyone who has been to Convention through the years most certainly remembers the wonderful chef of Cleveland's House, Henry Marcan. On a recent trip to Prague, to visit his mother who was suffering a mild illness, Henry succumbed to a heart attack. He will be sadly missed by his friends at Cleveland's House and by all of us, who have had the pleasure of sampling his culinary talents. Our deepest sympathy is extended to his family at home in Prague..

### Congrats!

Bramalea 5 Pin would like to congratulate the volunteers of Central Ontario 5 Pin Bowlers' Association for their upcoming award. At the end of May, 2006, Mississauga Mayor Hazel McCallion will present to them a Civic Award of Recognition for their ongoing support to the community. Awesome job and have a great night!!

### Brampton Sports Hall of Fame

On May 31st, 2006, Mrs. Patricia Jepson of Brampton Bowl will be inducted into the City of Brampton Sports Hall of Fame. Pat is being honored for her impact on the community over the years with her introduction of weekly mental and physically handicapped bowling programs and was instrumental in organizing bowling events in the Actifest (Senior) Games for the City of Brampton which she continues to this day. She also initiated other projects such as the Big Brothers "Bowl for Millions", the Muscular Dystrophy Association, Multiple Sclerosis, the Kidney Dialysis Association and the Alzheimer's Society, all of Peel Region. All in all, the total raised through her efforts is well over \$1,000,000. Congratulations Pat, for an award well deserved.

Suite 602

North York, Ont,

Reply required by: April 17th, 2006.

Please contact the Ontario 5 Pin Office for further details and to obtain the registration forms.

## Smith Falls 5 Pin Bowlers'

Blind Bowler On Team That Wins House Round of Provincial Triples Tournament.

Tom Philpot, a blind bowler, competed along with two sighted bowlers in the House Round of the Provincial Triples held recently in Smiths Falls. Tom along with his two tem mates bested all comers in the house round. We at SF5PBA are very happy with the outcome and wish them the best of luck in the next round. The team members are from left to right: Don Farrow, Tom Philpott and Mike Young.

## Out of This World Answers

1 B. Jupiter is huge! If Jupiter was hollow, you could fit about 1,400 Earth size planets inside of it with room to spare.

2. C. Mercury and Venus are the only planets in the Earth's solar system that don't have moons. The number of moons varies from planet to planet. Earth has only one, but astronomers have counted 39 moons floating around Jupiter.

3. B. Jupiter. Astronomers believe that the oval shaped spot is one of the many storms that exist in Jupiter's turbulent atmosphere. The spot is so big that if 3 Earths were placed side by side in front of it, they would scarcely span it. It is thought that the storm is more than 300 years old!

4. B. Pluto sits on the edge of our solar system at a distance of 3,647 million miles from the Sun. Since it is so far from the Sun's warmth, temperatures average about -390 F.

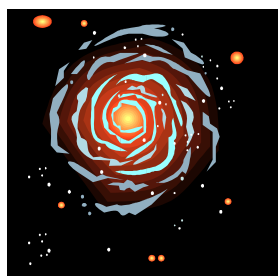

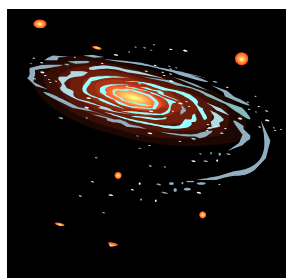

5. C. On July 20, 1969 Neil Armstrong became the first person to set foot on the moon. After taking his first step, Armstrong captured the moment when he told an attentive audience back on Earth: "That's one small step for man, one giant leap for mankind".

6. A. Comets are balls of ice and dust that orbit the sun. When the comet nears the sun, some of its ice melts creating a long tail that makes it more visible. The best known comet is Halley's Comet, named after English astronomer Edmond Halley, which can be seen from earth every 76 years.

7. A. The average life span of a yellow sun is about 10 billion years. The Sun will eventually stop producing heat, slowly cool down and then engulf the Earth. But don't worry; it probably won't happen for another 5 to 6 billion years.

8. B. Of these three planets, Saturn is the only one with rings. Its rings are made from large chunks of rock and ice that orbit around the planet. When Voyager 2 passed by the planet in 1986 it counted more than 100,000 ringlets. Jupiter, Uranus and Neptune are the only other planets in our solar system that have their own ring systems.

9. C. The Andromeda Galaxy is our closest spiral galaxy. It is four times bigger than the Milky Way Galaxy, and a whopping 2.2 million light years away. The Andromeda Galaxy is so bright you can see it with your own eyes on a clear sky.

## Armchair Quarterback Quiz

1. What is the annual January showdown to determine the best National Football League (NFL) team called?

- a) The Grey Cup
- b) The Super Bowl
- c) The World Series
